Two Types of Cryptography

- Symmetric Cryptography
- Asymmetric Cryptography

The diagram illustrates the encryption and decryption process. It shows a cycle between 'plaintext' and 'ciphertext'. Two key icons are shown: the top one is labeled 'Shared Key / Public Key' and the bottom one is labeled 'Shared Key / Private Key'. Arrows indicate that the top key is used to convert plaintext to ciphertext, and the bottom key is used to convert ciphertext back to plaintext.

金枪鱼之夜：技术交流

Tunights

- 金枪鱼之夜
- Talk about everything!
- Programming languages, DevOps, HPC, embedded systems, cryptographic, filesystem, OS, ML, mathematics, academic writing, etc.
- Recorded & archived on <https://tuna.moe>

Plans of Invited Talks

- 陈嘉杰: Kubernetes 入门 (咕了一学期了)
- 付祈安: 没想好, 但是很想讲 (也咕了一学期了)
- 张卓婧: “我有一个 potential idea”
- (欢迎主动提出!)

Now...

- Self Introduction
 - Who are you? (name & ID)
 - What do you like?

Keep Informed

- 订阅邮件列表
- 在社团协会信息化平台申请加入
- Telegram / IRC / 微信
- 主页: <https://tuna.moe>

Thank You

- *做了一点微小的贡献，很惭愧*
